

Weigh-in Kits Available –

With scales bags and bump board available for all Federation Clubs

Due to increasing demand from clubs particularly high school and Junior clubs for scales and the necessary items to run their own tournaments we have put together a weigh-in kit for our member clubs.

You will see the following items pictured below as the components of the kit.

1. A set of affordable, dependable, accurate, electronic digital scales which many of our clubs and NBAA division circuits use at their weeknight events across the country. The front detaches and sets off to the side and you can simply slide the scale base into a one-gallon ziplock bag (or sit them inside a clean weigh in bag), with the wires running out the back to keep the water off the scales themselves. They make great little weigh scales and we have many sets in the field for multiple years now and still going strong!
2. Ten(10) Bass Pro Shops/Cabela's weigh in bags
3. One Aluminum Bump board
4. Includes shipping right to your front door.
5. You can order direct from our online members store fedanglerstore.com

Total Price per kit: Only \$99.00
